

GROUNDBREAKER
TALENTS

IMMACULATE NAYIGA

Groundbreaker Talent, Cohort 2 2024

20

Salaama, Uganda

UACE

LANGUAGES:

English, Luganda

SIBLINGS:

5 sisters,
1 younger brother

FAVORITE FOOD:

Pizza

HOBBIES:

Writing books

BIGGEST INSPIRATION:

People who are better
than me

What motivated me to apply:

Thinking of Groundbreaker as the name of the organization brings out a thought of innovation and progress. I was motivated to join Groundbreaker because of its conducive environment for women; the fact that it is an organization that encourages and sponsors women to be a part of the evolving technology gave me an opportunity as a tech enthusiast to belong to such an environment. For this reason, I am forever grateful to operate with like-minded people.

My future aspirations:

In reference to the profession, I believe I have not only got tech skills from Groundbreaker but it has also nurtured a ladylike etiquette in me which I believe I will take on, my future aspirations are way many to fit this page but to briefly share my ambitions, I hope to become a lady that people would look up to and inspire younger generations to be apart of the evolving tech world. Additionally, I can see myself being a wizard because, just like GRACE HOPPER SAID, "the most dangerous phrase in a language is, 'we have always done it this way.'... " I can build more my way.

If I was quoted on Social Media, this is what I would say:

Life will always keep throwing challenges at you, it doesn't matter how you go through them but what matters is what you become and what you accomplish at the end. People want to see success, fail till your successful!
